MAINETIRE

CHALLENGER

PNEUMATIC SHAPED SOLIDS

Traction

Smooth

Ribbed

6400

SOLID ADVANTAGES

- Can't be flattened by punctures, cuts, or tears
- No casing failures like foam filled pneumatics
- Long wearing, high traction Challengers outlast and outperform pneumatics for your best tire value
- Challenger Extra Duty and Challenger Easy Rider traction tread solid tires are the established workhorses of the industry.
- Full sized construction gives you more rubber to outlast the competitors' solid tires.

COMPOUNDS

STANDARD COMPOUNDS

Extra Duty 2-Stage

- 100% natural rubber
- Industry's highest tensile and tear strength specifications
- High abrasion resistance
- Lower rolling resistance
- Established line of performance tires
- Maine's toughest tire with premium performance

Easy Rider 3-Stage

- 100% natural rubber
- Lower battery drain
- Maximizes speed requirements
- Increases energy efficiency
- Especially effective for high cycle applications

NM Endurance Non-Marking

- 100% natural rubber (white)
- Low rolling resistance
- Excellent tensile strength and wear resistance
- Outstanding performance where cleanliness is required

CAUTION: Always use static straps with any non-marking tire.

Tires are also available in this variety of compounds. These Custom and combination compounds are available upon request as Special Factory Orders.

Glass King

- 100% natural rubber impregnated with fiberglass filaments
- Designed to minimize deflection and heat build-up
- Increases abrasion resistance
- Improves stability and carrying capacity
- Excellent for use on steer axles

WireTex

- 100% natural rubber impregnated with tough brass filaments
- Improves traction on wet slippery floors
- Reduces cutting and chunking
- A tough tire for tough applications

Grip Rubber

- 100% natural rubber impregnated with crushed walnut shell particles
- Non-abrasive traction alternative for wet or slick surfaces
- Excellent for sanitary environments
- Floor friendly traction tire

Oil Resistant

- Special blend of synthetic rubber and nitrile
- Minimizes deterioration caused by petroleum products and animal fats
- Extends tire life on oily surfaces

UL

UL Static conducting

- Only UL approved tire
- A blend of 100% natural rubber with a special carbon black
- Acts as conduit to drain electricity build-up from industrial vehicles
- Designed for use on all EX, DX, ES and EE rated explosion proof vehicles or any other applications where static discharges are a problem

FEATURES & BENEFITS

- Increase skid-steer loader **UPTIME** while reducing maintenance costs and service calls.
- Improve forklift performance in the toughest environments.
- Don't be at the mercy of high maintenance, flat prone pneumatics.
- Priced right and ready for easy bolt-on installation.
- Available as an assembly with a new wheel, and your choice of a Challenger Extra Duty or Challenger Easy Rider traction tread solid tire.
- MaineTire dealers can quickly convert your equipment to flat-free operation with rugged Challenger assemblies.
